1. [REDACTED] Comment. If the troop trains from Lieberose actually carried soldiers only, they were possibly recruits sent to the 7th Gds Mech Div in the fall of 1952. They returned to components of the division at Frankfurt/Oder or fuerstenwalde in December 1952 after receiving basic training at the Lieberose troop training grounds.

2. [REDACTED] Comment. The flatcars assembled in the Erfurt railroad district were possibly used either for commercial shipments or for the transportation of engineer units of the Eighth Gds Army to Bad Koesen. [REDACTED]
